ORGANISATION	CASES
Hird & Partners LLP	240
Myers Group 1959 Limited	41
Zigup PLC	35
FMG Support (FIM) Limited	15
Charles Birch Limited	14
Climate Innovation District 312 CIC	11
Little Kelham CIC	7
Harewood Management Services Limited	6

⚡ Engagement & Usage

How actively clients and staff are using the portal day-to-day.

MEASURE	VALUE	WHAT IT MEANS
Cases active in the last 30 days	110	Cases with recent activity, showing live workload
Messages with attachments	2	Messages that included supporting documents

★ Value Indicators

Metrics that show how deeply the portal is being used, and how efficiently cases are being handled.

1.2

Avg messages per case
Depth of client communication per
matter

2.4

Avg interactions per case
Updates and actions logged per
matter

100%

Submission conversion rate
New submissions that became active
cases

0%

Messages with files
Digital document exchange via
messaging

Message Response Health

Tracks whether client messages are being replied to. A message is considered unanswered when it is the most recent message on an active case and no reply from the recovery team has followed.

CATEGORY	COUNT	WHAT THIS MEANS
Total unanswered messages	17	Active cases where the last message is from a client with no reply yet
→ Waiting over 7 days	12	Longest outstanding — these require urgent attention
→ Waiting 2 – 7 days	2	Approaching escalation threshold
→ Waiting under 2 days	3	Within normal response window

① **About these figures:** All data is drawn directly from live portal records. Projections are estimates based on observed activity rates and period-on-period trends — they are intended as a planning guide only. For a full case-by-case breakdown, please refer to the detailed case reports available within the portal.
