1. Signing In to the Portal

Accessing your Acclaim portal securely for the first time and on every visit.

The Acclaim portal is available at acclaim-api-prod-uks-001.azurewebsites.net/auth. Your account is created for you by Acclaim.

Signing in with Microsoft (Recommended)

If your organisation uses a supported identity provider such as Microsoft 365, Google Workspace (Gmail), Yahoo, or another compatible business account, you can sign in using your existing credentials. This is the quickest, easiest and most secure way to access the portal.

1

Click "Sign in with Microsoft"

You will be redirected to Microsoft's secure sign-in page.

First Time Registration

If this is your first time accessing the portal, you will need to register with Chadwick Lawrence. To do this, select **"No account? Create one!"** and follow the on-screen instructions to complete the registration process (use the same email address your Acclaim account was set up with). Once your account has been registered, you can simply sign in using your email address and password on future visits.

2

Enter your work email address

Use the same email address your Acclaim account was set up with.

3

Complete Microsoft sign-in

Enter your password (and MFA if required) as you normally would for any Microsoft 365, Gmail or Yahoo service.

4

You're in

You will be redirected straight to your dashboard.

2. Your Dashboard

A live overview of your entire case portfolio and recent activity.

The dashboard is the first thing you see after signing in. It gives you an at-a-glance summary of your recovery portfolio and highlights anything that needs your attention.

Live Statistics

Shows your total active cases, outstanding debt value, recovered amount, and closed cases — updated in real time.

Recent Cases

The five most recently updated cases appear here for quick access, with their current status displayed.

Recent Messages

Your latest incoming messages from the Acclaim team are shown here so you never miss an update.

Auto-Refresh

The dashboard refreshes automatically every 10 seconds — you always see the latest data without needing to reload.

Multi-Organisation Users

If your account is linked to more than one organisation, the dashboard will show combined statistics across all of them by default. You can filter to a specific organisation using the selector at the top of the page.

2. Your Dashboard

Acclaim Portal — Client User Guide

3. Viewing & Managing Cases

Browse, search, and filter your entire case portfolio in one place

Click **Cases** in the sidebar to open your full case list. Every debt recovery case Acclaim is managing on your behalf appears here.

Cases				
Search by debtor, reference...			Status ▾	Stage ▾
CASE / DEBTOR	REFERENCE	STATUS	STAGE	OUTSTANDING
Smith & Sons Ltd	ACC-00124	Active	Claim	£12,450.00
J. Robertson	ACC-00131	New	Initial Contact	£3,200.00
Brightfield Interiors	ACC-00098	Closed	Paid	£0.00

Searching Cases

Use the search bar to instantly find a case. You can search by:

- Debtor name — the individual or company owing the debt
- Account reference — Acclaim's case reference (e.g. ACC-00124)
- Debtor email address
- Organisation name (if you belong to multiple organisations)

Filtering Cases

Use the **Status** and **Stage** filters to narrow down the list:

FILTER TYPE	AVAILABLE OPTIONS
Status	Active, New, Closed
Stage	Initial Contact, Pre-Legal, Claim, Judgment, Enforcement, Payment Plan, Paid

Tip

By default, only active cases are shown. To view closed cases or your entire portfolio, change the **Status** filter to "All" or "Closed".

4. Inside a Case

A full picture of every case — debtor details, financials, activity timeline, messages and documents.

Click on any case in the list to open its detail view. The case is organised into tabs so you can quickly find the information you need.

FINANCIAL SUMMARY

Original Debt	£14,000.00
Interest Added	£350.00
Payments Made	-£1,900.00
Outstanding	£12,450.00

Case Tabs Explained

Case Info

Debtor contact details, address, debt amounts, costs added, payments received, and the current outstanding balance.

Activity Timeline

A full chronological log of every action taken on the case — stage changes, payments, documents added, and messages sent.

Messages

All messages linked to this specific case. Send a new message directly from here and it will be associated with the case automatically.

Documents

All documents related to this case — uploaded by you or issued by Acclaim (legal notices, agreements, court documents).

5. Muting Cases

Control exactly which cases send you notifications, without losing access to any of them.

If your organisation has a large number of cases, you may find that you receive notification emails for every update — even cases that belong to a colleague and don't require your direct attention. Muting lets you silence those notifications on a case-by-case basis.

Why muting is useful

Imagine you manage 50 cases but 35 of them belong to a colleague. Muting those 35 cases means your inbox only receives updates on your 15 — keeping your notifications focused and relevant.

How to Mute a Case

1

Open the case

Click the case from your Cases list to open its detail view.

2

Find the bell icon at the top of the case

A  bell icon appears in the case header, next to the case name.

3

Click the bell to mute

The icon changes to  (bell with a line through it) to confirm the case is muted. You will no longer receive email notifications for this case.

4

To unmute — click it again

Muting is never permanent. Click the  icon any time to restore notifications for that case.

Case header — mute toggle

J. Robertson · ACC-00131

Active · Pre-Legal Stage

 Muted

 Notifications for this case are muted. You will not receive email updates for new messages or documents on this case.

You can also mute or unmute cases from within your User Profile settings. A list of your cases will be displayed, with a toggle beside each one. Simply switch the toggle on or off to manage notifications, and easily identify which cases are currently muted.

Auto-Mute New Cases

You can also choose to automatically mute all new cases as they are added to your organisation. This means you start from silence and only unmute the cases you want to hear about. This setting is found in your **Profile** → **Notification Preferences**.

Unmuting to Cover for a Colleague

Muting is flexible. If a colleague is on leave and you need to take over their cases, simply open each of their cases and click the muted bell icon to unmute — you'll immediately start receiving updates for those cases. Once they return, you can mute them again.

Important to know

Muting only affects your email notifications. The case is still fully visible to you and you can still read messages and documents — you just won't be emailed about new ones.

6. Sending Messages

Communicate securely with the Acclaim team — with or without attaching files.

The portal's messaging system replaces insecure email for communications with Acclaim. All messages are stored securely, linked to your cases, and both parties receive email alerts when a new message arrives.

Sending a Message from Within a Case

This is the most common way to send a message. Open a case, click the **Messages** tab, then click **New Message**. Your message will be automatically linked to that case, and the Acclaim team will see the full case context alongside your message.

Messages — ACC-00124 Smith & Sons Ltd

Acclaim Team
We have served the claim on the defendant. We expect a response within 14 days. We'll update you as soon as we hear back.

Write a message...

Attach a file

Send Message

Attaching Files to Messages

You can attach a file to any message. Supported formats include PDF, Word (.docx), Excel (.xlsx), and common image formats. The maximum file size is 25MB.

Attachments are saved automatically

When you attach a file to a message linked to a case, it is automatically saved to the Documents section for that case. You don't need to upload it separately.

Replying to Messages

When Acclaim sends you a message, you will receive an email notification (unless the case is muted). Open the portal, navigate to the message, and click **Reply**. The original message text is quoted for context.

7. Documents

Upload supporting evidence and download legal documents issued by Acclaim.

Click Documents in the sidebar to open your document library. This shows all files across all of your cases — uploaded by you or issued by Acclaim.

Uploading Documents

Upload invoices, contracts, correspondence, or any supporting evidence. Open a case → Documents tab → Upload. You can also attach files via the messaging system.

Downloading Documents

Documents issued by Acclaim — such as court letters, formal notices, and agreements — appear here for you to download at any time.

Case Organisation

Documents are grouped by case so you can quickly find everything related to a specific debt recovery matter.

File Statistics

The documents page shows a breakdown of file types (PDFs, Word documents, spreadsheets) so you always know what's on file.

Supported file types & size limit

PDF, Word (.doc, .docx), Excel (.xls, .xlsx), and common image formats (JPG, PNG). Maximum file size is 25MB per file.

8. Submitting a New Case

If enabled, you can instruct Acclaim to begin recovering a new debt directly through the portal.

Click **Submit a Case** from the right-hand side, at the top of your dashboard to open the case submission form. This sends a new instruction to Acclaim, complete with all the information needed to begin the recovery process.

What the Form Covers

SECTION	INFORMATION REQUIRED
Client Details	Pre-filled from your profile — your name, email, and organisation.
Creditor Information	The business or individual owed the money (usually you).
Debtor Type	Individual / Sole Trader <i>or</i> Organisation (company). Different fields apply to each.
Debtor Details	Full name or company name, address, contact details, company registration number (if applicable).
Debt Details	Original amount owed, description of the debt, invoice date(s).
Payment Terms	The agreed payment terms — days from invoice, days from month end, or custom.
Invoice Details	Invoice numbers, dates, and amounts.
Additional Information	Any relevant notes or background for Acclaim.
Supporting Documents	Upload invoices, contracts, or correspondence to support your instruction.

Only fill in what applies

The notification sent to Acclaim only includes the fields you have actually filled in — blank fields are excluded, keeping things clean and relevant.

Once submitted, Acclaim will review the instruction and create the case in the portal. You'll be able to track its progress from the [Cases](#) page

9. Notification Settings

Decide exactly when and how you are alerted about activity on your cases.

Go to Profile → Notification Preferences to manage your settings. You have two levels of control: global toggles that affect all cases, and per-case muting for fine-grained control.

Profile → Notification Preferences

**New message notifications**
Email me when Acclaim sends a new message on any case

**Document upload notifications**
Email me when a new document is added to any of my cases

**Login alerts**
Email me when someone signs in to my account

**Auto-mute new cases**
Automatically mute all new cases added to my organisation

**Message Notifications**
Receive an email whenever Acclaim sends you a new message, with a direct link back to the portal.

**Document Notifications**
Be alerted when a new document is uploaded to any of your cases — so you never miss an important filing.

**Login Alerts**
Receive a security alert whenever your account is signed in to, including the method used (password, Microsoft SSO) and the device.

**Auto-Mute New Cases**
Automatically mute all new cases as they are added to your organisation, so you only opt in to the ones relevant to you.

Reminder: Per-case muting

The settings above apply globally. To mute a *specific* case only, use the bell icon inside the case detail view — see Section 5 for instructions.

10. Organisation Owner Controls

For users designated as the owner of their organisation — manage team access to cases.

If Acclaim has granted you Owner status for your organisation, you will see organisational control in your profile: **Organisation Settings**. This gives you tools to manage which members of your team can see which cases.

Am I an Owner?

If you are an Organisation Owner, your organisation name in the sidebar will show a small crown icon () badge next to it. You will also see the Organisation Settings link in the sidebar.

Case Access Restrictions

The most powerful feature available to owners is the Case Access Matrix. This allows you to block or allow specific team members' access to individual cases.

● ● ● Organisation Settings → Case Access

Manage which team members can access each case. Toggle to grant or restrict access.

TEAM MEMBER	ACC-00124 SMITH & SONS	ACC-00131 J. ROBERTSON	ACC-00098 BRIGHTFIELD
S. Thompson			
K. Patel			

What Restricted Users Cannot See

When a user is restricted from a case:

- The case does **not** appear in their Cases list
- They cannot access the case detail, even with a direct link
- They do **not** receive message or document notifications for that case
- The restriction is invisible to them — there is no error shown, the case simply doesn't exist for them

Restrictions can be removed at any time from the same matrix view.

Viewing Your Team's Portfolio

The Organisation Settings page also gives you a full view of all cases in your organisation and which team members are associated with each one, so you always have an accurate picture of your team's workload.

11. Reports

Export detailed analysis of your debt recovery portfolio in Excel and PDF.

Click Reports in the sidebar to access all available reports. Each report can be filtered, viewed on screen, and exported to Excel or PDF.

Case Summary Report

A complete overview of your portfolio — debtor names, references, statuses, stages, original debt, costs, interest, and outstanding balances for every case.

Monthly Statement Report

A month-by-month reconciliation of all activity — useful for accounting and financial reporting purposes.

Payment Performance Report

A full breakdown of cash flow — payments received, expected, and overdue, with patterns over time.

Messages Report

View a report of all messages in/out on your cases. You can filter by date range.

Filtering Reports

Before generating a report, you can filter by:

- Organisation — if you belong to multiple organisations, report on one or all
- Case status — active cases only, closed cases only, or all
- Date range — for time-period specific analysis

Exporting

Every report can be exported as an Excel spreadsheet (with colour-coded status columns) or as a PDF for sharing or printing. Exports include all filtered data and the same statistics shown on screen.

Scheduled Reports

Acclaim can configure scheduled reports to be emailed to you automatically — daily, weekly, or monthly. If you'd like to set this up, contact Acclaim at email@acclaim.law and they can configure it from the admin panel on your behalf.

12. Your Profile

Update your personal details, change your password, and manage your security settings.

Click your name or avatar in the sidebar to open your profile. From here you can manage everything related to your account.

Getting Help

The Acclaim team is always on hand if you need assistance.
